
April 26, 2006

Hello Allen.

I have been so very pleased with the Dexter Express washers I recently purchased from you. They have truly lived up to what you told me about them -- extracting so much more water from the clothes.

My customers are extremely happy with the washers because they really cut down on the drying time which means the people have to spend less time doing their laundry. Sometimes, I have folks waiting to use them because they are so popular. I think I may have to start issuing numbers to people!!!!

After being in the laundry business for over twenty-five years, I honestly believe these Express washers are the best things that have been introduced in a long time.

Thanks, buddy, for sharing the news with me. You are a good guy!

Sincerely,

Robert Brenneman
