Dear Doug Grise:

SUBJECT: DEXTER EXPRESS WASHERS

This is just a short letter to let you and your staff know how much we appreciate the service provided by the Teeters team. I have been in the industry for over 20 years. During this time, I have worked with countless equipment companies and sales people. I can honestly say you and your team have provided us with the best service and support of any company we have ever worked with.

I have become very skeptical over the years of any claims made by people selling a product. When you approached me with your pitch about the Dexter Express Washers, I must admit I was highly skeptical of them performing anywhere close to what you were telling me. After having the washers in use now for over 4 months, I can say without hesitation that they have done everything you said they would do. Our customers love the washers and our sales have gone up more than I possibly could have imagined. In short, we love the machines and better yet, our bottom line has improved dramatically. Lower utility bills and higher revenues make the choice to switch to the Express Washers a no-brainer. I want to thank you also for all your hard work in helping us remake our store into something our customers love. Hundreds of customers have told us that our laundry mat is the best one they have ever been in. That to me is just so gratifying.

Thanks for you all your help. Please tell all the Teeters staff how much we appreciate their service and support.

Sincerely,

Howard Boone
